## ANSWERS TO QUESTION OF THE MONTH

JAN. QUESTION: If you had your life to live over, would you want to be a man again and dress like a women? Or would you have rather been a women & why?

ANS: Regarding the question of the month. There is a good book by ROBER THEIN\* LIEN. I think it's called "I will fear no evil". It's about a rich old guy who has his brain transplanted to a younger body. He discovers that his new body is that of a girl. Although the story is science fiction, I dream about it often. My mind would be the same nomatter what body it's in. I just think a more suitable body would be that of a women.

"I'd like to report a theft by a tall, dark transvestite . . . !

I would like to be fussedover, I would like people to come up to me, to protect and love me, I'd like to know if I were helpless people could understand. I'd rather follow than lead, I would enjoy people taking pleasure in me, particulary when makeing love. I would also like to have babies. If women's liberation is complete, then any man could do all the above except the last point. But at present if one is inclined that way it's best to be a women. I could safely say that I'd much rather have been as a woman. ELIZABETH , TORONTO, CANADA.

ANS: This is my answer to the question of the month.

1. No I would not want to be a man

and dress as a women.

2. I would much rather have been born a women that a man.

of VT.

3. Because my inner person is that of a normal woman and for that re-ason I so much wish I had the body of a woman. Because of my femine me

I so much want and need the love of a man. I so much wish I could bear, nurse & raise children. To be a perfect wife and mother is my bigest and really most important wish in life.

A question likethis takes some kind of thought the kind that has always ANS: A question likethis takes some kin been in my mind right from the begining.

I have tried to look at it from the other side, had I been born a girl would I have the same (TV TS) thing in reverse. Then I might not be happy with my body and the rules socity has set for me to follow. That would be a strange trick of fate to find yourself in the next time around, or maybe that has already happened to me before. Now to get to my answer I would not care if I were man or woman only that I would have no hang-ups (TV TS) that is and would be happy with myself.

JANES. AVERILL PARK, N.Y.

Dear Wilma;

These so-clied female apparell are in all treality the proper clothing for both SEXES they have been since time began and for an example take a good look a at both the Greek as well as the Scottich Armies they both wear dresses in their at both the Greek as well as the Scottich Armies they both wear dresses in their armed forces, they always did. And not one of them sports a VIGINIA! No by crackey they are all truley males be gorry! I simply cannot understand why it is that this Western world harbors such a low opinion of those that wear the so-called female garments. Why it is that Our lousey Society looks down on the wearer of the so-called female apparell but they do and thet can't tell you why they di it, and they even go so far as to call you a sissey why? But in all reality I love being called a Sissey because that just happens to be the slang name for Actually the prettiest female name I know of and that name is Cecialia, I do love the sound of that gorgus female. the sound of that gorgus female
