Mr. Lou Sullivan  
[redacted] Haight Street/[redacted]  
San Francisco, California 94117

Dear Lou,

It was a delight to meet in person, at last. Moreover, it was a real pleasure to have you join Joseph and me in our home. You were our first guest and it was great that it could be you.

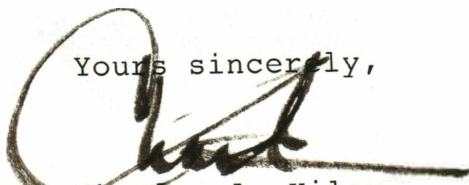

Perhaps you will remember I wanted to have one copy of your excellent booklet for Female-to-male folks. Please find a check and request enclosed. I look forward to receiving it as we have three or four new applicants to the program who will find this information extremely useful.

August must be the month for TS folks. I have had several applications to the Program this month and there appears to be no let up. We currently have about sixty people affiliated in a variety of stages in their transitional programs. No doubt it will be necessary to add staff if this situation continues.

Take care of your health and do keep in touch with us. Do feel free to visit again if you are feeling well enough to do so. It would be nice if we could vacation in your town, but school is going to be a real drain on time and resources for both of us starting in September.

Bye for now.

Yours sincerely,

  
Charles A. Kiley
