Judy Van Maasdam
Gender Dysphoria Program
900 Welch Rd, Suite 402
Palo Alto CA 94304

Dear Judy:

I have finally become financially able to seriously pursue completion of my female-to-male transition.

Please refer to my applications to you of October 1976, October 1979, and June 1981.

Update since my last letter:

I have now lived full-time as a male over 4 years. I worked as an "Associate Engineering Technician" at ARCO Oil and Gas Company, along with Bechtel engineers in San Francisco from August 1980 to September 1984. ARCO left San Francisco (I turned down several offers to relocate with the company) and no one there ever knew of my past. I'm now living on a generous severance package. I met a male lover September 1981, who never knew me as a female... we've been living/loving together since, and have gone into a printing business together.

I am interested in the surgical technique as recently performed on ██████████. Please send information, self-addressed stamped envelope enclosed.

Sincerely,

Louis G. Sullivan
