

You have to understand a lot these persons, changed their names in order to start a new life, they came from all over the world to a little place called the Tenderloin. It was mostly word of mouth it was not advertised in Newspapers or Television. And most of us came thru the Greyhound bus depot on Seventh St. between the Market St. and Mission St.

And the person who had a lot of influence in my life other than my mother was when I saw the Christine Jorgensen Movie of the first Sex-Change, I saw in 1970 in Chicago. I didn't know how I was going to get there but I knew where I was headed.
