BEVERLY IS BACK FROM AUSTRALIA

The trip "Down Under" was one of the most enjoyable journeys I have ever made. The land is spectacular and the people are beautiful. In the lovely city of Sydney, over on Oxford Street exist a very active and sizeable TV, TS, and TG community. Their alternative life-styles are accepted by the general population. Infact, interaction between the two communities is common and I saw no stigma placed on our "Sisters Down Under." Just off of Oxford Street is a large club called "Le Girls." It is very plush and offers well produced live cabaret entertainment. Of course the show girls are all very special as well as being beautiful. Over at Kings Cross one can find the red light district plus numerous gay and TV/TS/TG oriented clubs. If one wanted to go full time, Sydney would be a place to consider. It is a very modern city where the TV community is both accepted and respected.
