This conference is open to all women who are partners or wives of heterosexual, gender-gifted men. The programs are designed specifically to help build self-esteem and self-respect; to help you deal with the many issues inherent in a gender-influenced relationship. Well-known, skilled and compassionate professional counselors will present programs as well as leading wives and partners from local and national support groups around the country.

S.P.I.C.E. has literally changed the lives of many attendees as we are dedicated to providing a wide array of topics with a qualified faculty and abundant amounts of peer support.

As all work and NO fun makes for a dull conference, we have therefore included opportunities to join small groups to tour, shop or play in addition to the conference.

Join us for a unique, stimulating, thought provoking four days that could revitalize your viewpoint, if not your life.

> The Professional staff ... is trained to meet the specific needs of individuals in the transgendered community. The primary purpose of the conference is education, however social activies are planned There will be many special moments with friends you will make for a lifetime
