Fantasia Fair has the most comprehensive program of seminars and workshops available to the crossdresser. The blend of practical and educational experience concentrated in the Fantasia Fair setting is truly unique. Helping professionals familiar with our program are staunch advocates.

Each participant selects those programs that emphasize a particular interest. They may then expand their knowledge at their own pace. This is one of many reasons why participants return year after year.

FASHION AND BEAUTY COURSE

Every facet is documented in this group of classes and workshops. It begins with wig care and hair styling. The proper application of makeup that will contour and highlight bone structure, re-shaping the face into a feminine image. Techniques are taught to hide those dark shadows. Attend a class in feminine body movement that utilizes videotape for immediate feedback. Fashion experts will provide advice concerning wardrobe selection. They will illustrate the use of style and color coordination that will flatter your figure and soften those hard features. A consultant is available to provide the proper use of corsetry and prostheses to add or subtract where nature failed to provide. Bring leotards and tights. Learn basic aerobic exercise. Improve your body language by practicing graceful body movement in dance. Proper nutrition and diet complete this exhaustive plan to enhance your new femme self.

SPEECH IMPROVEMENT SEMINAR

This is an intensive program taught by an experienced speech therapist. Ten hours of small class instruction that include the following: the basics of gender speech patterns, voice modulation, elocution, and the relationship between speech and gestures. A worthwhile course for nearly everyone.

PERSONAL GROWTH WORKSHOP (2 Sessions)

Last year this workshop left the participants saying "More!" This year two sessions are offered. Come prepared to deal with issues and emotions. Be ready to open your heart and mind to a professional facilitator who has the ability to penetrate into your psyche. This experience replaces apprehension with awareness that enables the participant to grow and be more comfortable with the femme self.

SPOUSES WORKSHOP

This workshop, held in a non-threatening environment, encourages wives to express ambivalent feelings about crossdressing. In addition to raising consciousness, a professional counselor will suggest strategies for coping and methods of improving communication. The goal is to promote a healthy relationship between husband and wife.

LEGAL SEMINAR

Research has been accomplished by a team of lawyers into subjects that are a source of concern and misunderstanding in our community. Appearing in public, civil rights, use of femme name, and the legal impact on relatives are some of the issues discussed in this important seminar.

MEDICAL/HEALTH ISSUES SEMINAR

Each year a professional from the medical or mental health field presents valuable information of interest to all segments of the paraculture. Past seminars explained hormonal reassignment, cosmetic surgery, and sex reassignment surgery. These issues, and additional topics such as "The Standards of Care," living and working full time in the female role, and relationships during transition, are planned.

SOCIOLOGICAL DEVELOPMENT SEMINAR

Developing the social skills necessary to appear in public is very difficult — usually learned by trial and error, sometimes with disastrous results. The advanced cross-dressers who conduct this seminar share their experience, tips and techniques to help the novice handle most social situations and deal with any problems that may arise. The health care professional will discuss dealing with crisis, controlling guilt, and methods to survive compulsion.

OUTREACH INSTITUTE SEMINAR

The director of the Outreach Institute will describe the various activities that the Institute participates in. In addition to being the "architect" of Fantasia Fair, it is the only organization recognized by the medical/psychological community. This provides an important link for the crossdressing community. Outreach gives seminars and workshops for helping professionals, and offers a referral service to the crossdressers as well as the professionals. These are a few of the many educational functions of the parent organization.

FANTASIA FAIR AND PROVINCETOWN

Provincetown offers a unique and special setting for Fantasia Fair. Originally settled by the Pilgrims and then the Portuguese, the town became a major commercial fishing center. Subsequently, the town became noted for the many artists, writers and theatre people in residence. The town has a long history of acceptance of alternative lifestyles.

Today, Provincetown has numerous art galleries, shops, studios and boutiques attracting many tourists on summer vacation. It is also noted for its seafood and many fine restaurants. In October, the tourists are gone but the weather is sunny and mild and the autumn colors make it a delightful choice for Fantasia Fair.
