MAY

From Jean

Well, I've finally moved into the apartment. The concensus seems to be that someone should be at our place full time to protect our investment and I'm it for the time being.

All of our columnists(?) took a vacation this month so this issue will be a shorty. Caroline had the best excuse since she needed the time to practice playing tennis in her mini-skirt for her big match this saturday.

One of our members, Cynthia, has invited us to her home on on May 25. Cynthia is an interesting person to talk to and she has other surprises for us, so get to know her soon.

Next meeting is on May 11. Or should I say the next party since that's what they all turn out to be. Anyway, have fun.

#### The Cover

Between Lisa's inspiration and Sandy's talent, we have another beautiful front page. Sandy's drawing of the butterfly-girl represents Lisa's analogy that butterflys and TVTSSs go through a metamorphosis which is similar in many aspects. Both experience radical changes in physical appearance which inevitably leads to a more beautiful being. This is a rare phenomenon in nature and it proves once again that we are very special people. Life can be beautiful when one stops denying and starts living a life she intuitively knows is hers.

#### Girl of the Month

Or should we say GIRLS of the month, because these two are very special to us. Gail and Gloria are real girls who have had the courage to ask us for membership without wanting anything in return except our friendship. This isn't a situation where it's a one time visit from some curious girls nor are they second class members along for a ride. They are full time members of Hartford TVIC and we appreciate their support and hope they have started a trend which will keep us in close touch with the sex we admire most.

### General Information

Hartford TVIC is essentially a TVTS organization which offers information and social activities to its members. Our primary goal is to offer the opportunity to any TV or TS to develop into the person she wishes to be. We accept a wide range of individuals into our group to avoid the discrimination experienced by TVs and TSs. We believe that growth comes through opened not closed doors. Because TVs and TSs have the unique problem of needing proper facilities to develop some of their feminine potentials, a key club is available to them. To respect the privacy of the key members, no guests can be admitted to the apartment without the approval of one of the officers.
