

Some Advice For The **GRADUATE**

As you travel down  
the road of life,  
look out for  
TEMPTATIONS...

Sept. 20/86

Low -

Thanks a lot for <sup>all</sup> your letters  
+ submissions (reviews, cartoons) for publica-  
tion in the magazine. I'll be getting out  
a double-edition (32 pages) by mid-  
October hopefully. Also, will be sending  
out two of Isabella Clark's articles and  
the Confidential Contacts Directory before  
(that I hope - as a bonus for members  
+ subscribers having to wait so long (four  
months) without any word/magazine issue.

Would you be interested, Low, in  
submitting a report of your genital  
reconstruction for a future issue.  
Please advise. I'm sure our readers would  
be very interested in such a report.

Dr. Harry Benjamin died at age 101  
on August 27th - survived by his wife Greta  
- whom he married in 1925.

How's your biography of Jack  
Garland coming along?  
MMRF has sold four of the six copies  
of your book I ordered from you so far.  
Take care. - R.R.

...or you may miss them!

CONGRATULATIONS!

on your recent genitoplasty...  
I'm very pleased for you.  
Sorry this card is so late but  
I've been ill with bronchial-  
pneumonia for over three weeks  
now but am finally recovering. I'll be  
moving to another apartment on Oct.  
1st and looking for another job. I've a  
backlog of MMRF work (correspondence,  
magazine, directory, etc.) to do - will  
set at it really soon. Duper
