

Dear Oprah:

My wish for Christmas is to have a house for my boy Sammy & Shadow, I have been HIV+ for about 15 years. I have been dedicated to AIDS for that amount of time. I have taken care of numerous person in my apt. I have send two women home to die with their family. I have made about 60 AIDS memorial Quilts for person that have die of AIDS.

I have dedicated & volunteered and worked for non-profit AIDS organization here in San Francisco. I'm a transsexual woman & have <sup>been</sup> fighting to be accepted here in the San Francisco Community.

I'm on disability for HIV Related Stress. See my story on [HIVSTOPSWITHME.ORG](http://HIVSTOPSWITHME.ORG).

I am very scared that I will soon get sick, & who will take care of me & my kids.

Merry Christmas  
to you & your kids
