Dear Ariadne,

Your talk about your life as a transgenderist and your work with the Paraculture provoked the most response among the participants in the recent Human Sexuality Counseling course of any I've ever heard. I appreciate very much your willingness to share yourself so fully and your ability to describe so clearly and sensitively a lifestyle which was unfamiliar to most of the participants.

People were still sharing their reactions to your presentation on subsequent sessions.

Thank you for a most stimulating and important evening.

Please keep me posted on the activities of Outreach.

Yours sincerely,

Kathleen Logan, MSW
Education Coordinator
