Dear Ms. Jennings:

Thank you for your note of Feb. 7 regarding the Gender Identity Association. I am personally very happy to know of your clinic.

I am a 35 year old female-to-male who has been living as a man successfully for the past 6 years. I have been taking hormones since Nov. 1979 and had a simple bilateral mastectomy July 1980.

I am now financially able to seriously pursue the rest of my surgery. I am eager to know more about the Gender Identity Association and the phalloplasty with urethral hook-up and sexual function. Please inform me as to what is required of me in order to make application for surgery. I enclose a self-addressed stamped envelope.

Sincerely,

Louis G. Sullivan
