The Boston “T” Party — We’re Revolting!

**A post-conference discussion about the support
needs of non-hormone, non-operative FTMs.**

- ⇒ How was your experience at the Boston FTM Conference?
- ⇒ Did you experience an “unspoken hierarchy” that ranks pre-op and post-op FTMs as more important, better, or taken more seriously?
- ⇒ If you are a non-hormone, non-operative FTM, did you feel like a second-class citizen at this conference?
- ⇒ Why was the East Coast Female-to-Male Group (ECFTMG) and non-hormone, non-operative FTM leadership excluded from participating actively in this conference?
- ⇒ What do we need to do to create a *diverse* and *united* FTM community, going forward?

This discussion is open to all FTMs and our significant others.
