Dear Lou,

I heard from Emmen Wills that you are going to get chest surgery very soon.<sup>or</sup> Have you already had the operation yet and if not, when do you plan to undergo it? Are you on male hormones as well and if so, ~~for~~ how long ago? Do you pass in public as a man and do you work in the male <sup>or</sup> role? Which doctor and clinic/hospital did/will you have it done at? What about the hysterectomy and penile surgery? I am now living (for 7 months now) with [redacted] - my new lady love. [redacted]

is 43, a hairdresser, proprietress of her own beauty shop/hair salon. Her

apartment is in the back. We also have a black toy poodle named "Shandra" - real cute + sorry! The shop is named after her. "Chez Shandra Giffins".

We also have 3 birds : canary, budgie + cockatiel.

I have been working as a shipper-receiver at a toy factory for 6 months now but hope to change jobs soon so I have applied to the post office for X-MAS help.

Did you see the movie "Dressed To Kill" about a ~~psycho~~ schizophrenic TS killer? I did and I liked it except for its distorted definition of TSism and TS which is a damaging piece of mis-education / mis-representation of their phenomena / medical condition (gender dysphoria) to the general public.

Please write soon + tell me the news. Take care, Nick
